TravelMate

BRAND & UI GUIDELINES / V1.0

TRAVELMATE DESIGN SYSTEM

A world of possibility.
One clear direction.

Plan smarter, travel better.

01 Identity · 02 Color · 03 Typography · 04 Iconography · 05 Foundations · 06 UI in practice

01 Identity with a sense of direction

A map pin meets a paper plane: a place to go, and the freedom to get there.

PRIMARY / HORIZONTAL

TravelMate

Default for navigation, documents and product communications.

SECONDARY / STACKED

TravelMate

For centered, compact brand moments.

REVERSED / WHITE

TravelMate

On solid teal or navy backgrounds.

SINGLE INK / DEEP NAVY

TravelMate

For one-color printing and stamps.

ICON ONLY / APP & FAVICON

64px 32px 16px

Give the mark room to travel.

TravelMate

x = half the mark height. Keep at least x on every side of all lockups. Shown: 48px mark + 24px clear space.

Plan smarter, travel better.

Friendly, not playful. Confident, not complicated. TravelMate makes AI-powered travel planning feel clear, personal and reassuring.

Minimum: horizontal 160px wide; standalone mark 16px.
Never stretch, rotate, add effects or recolor the logo.
Keep the tagline separate from small product lockups.

02 Ocean calm. Sunset energy.

Teal builds recognition. Navy builds trust. Coral gives the next step a little warmth.

Swatch	Name	Use
#0E7C86	**Primary Ocean Teal**	Primary actions, links, active states and brand recognition.
#12263A	**Secondary Deep Navy**	Headings, navigation and high-contrast brand surfaces.
#FF6B4A	**Accent Sunset Coral**	Conversion CTAs and selective highlights. Pair with navy text.
#7C5CFF	**AI Violet**	AI features only: generation, suggestions and AI status.

Primary tonal scale

ocean-600 = #0E7C86 · exact brand anchor

Token	Hex	Use
ocean-50	#EFF9F9	Quiet surfaces
ocean-100	#D8EFF0	Selected fills
ocean-200	#B1DFE2	Subtle accents
ocean-300	#7CC9CE	Decorative lines
ocean-400	#40ABB4	Large graphics
ocean-500	#188F99	Hover accents
ocean-600	#0E7C86	Brand / primary
ocean-700	#10636D	Hover / pressed
ocean-800	#124E57	Strong emphasis
ocean-900	#123F47	Deep surfaces

Neutrals / the space between destinations

Swatch	Name	Use
#FFFFFF	**White**	Cards, menus and elevated surfaces.
#F6F8FA	**Cloud**	Page background and subtle sections.
#E4E8EE	**Mist**	Dividers, input borders and separators.
#8A94A6	**Slate**	Secondary text; large labels or nonessential / disabled copy only.
#1F2933	**Ink**	Body text and essential UI labels.

Feedback / always pair with words + an icon

Swatch	Name	Use
#22A06B	**Success**	Saved, confirmed, complete.
#F5A524	**Warning**	Review, limits, attention.
#E5484D	**Error**	Failed or invalid actions.
#3B82F6	**Info**	Helpful, neutral guidance.

A signature reserved for AI

AI itinerary generation

90° · #7C5CFF → #0E7C86
Only for AI features. Never ordinary navigation, booking actions or feedback.

ACCESSIBILITY NOTE Target WCAG AA: 4.5:1 for body text, 3:1 for large text. White on teal ≈ 4.9:1; navy on coral ≈ 5.5:1. Slate #8A94A6 on white ≈ 3.1:1: use Ink for small essential text. Mist is decorative; use teal focus rings for controls. Feedback colors are accents, not small text on white.

03 Warm in voice. Clear in every detail.

Poppins gives our headings an open, geometric personality. Inter keeps every journey easy to read.

Aa **Poppins** Headings · 500 Medium / 600 Semibold

Aa **Inter** Body & UI · 400 Regular / 500 / 600

STYLE	SIZE / LINE · WEIGHT	IN CONTEXT
Display	48px / 56px · 600 Poppins	Your next chapter starts here.
H1	36px / 48px · 600 Poppins	A little closer to everywhere.
H2	28px / 40px · 600 Poppins	Make room for discovery.
H3	22px / 32px · 600 Poppins	Your weekend in Lisbon
H4	18px / 28px · 500 Poppins	A neighborhood worth getting lost in
Body	16px / 24px · 400 Inter	Explore at your own pace. We'll keep the details in one place.
Small	14px / 20px · 400 Inter	Flights, stays and favorite places, all together.
Caption	12px / 16px · 500 Inter	LISBON, PORTUGAL · 4 DAYS · UPDATED JUST NOW

Sentence case by default. Aim for 45–75 characters per line. Left-align long copy; keep labels short and specific.

UI labels: Inter 14/20, 600. Input values: Inter 16/24, 400. Use the same scale in the Angular Material typography configuration.

04 Small signs. Universal meaning.

Lucide outline icons · 24 × 24px · 1.5px stroke · rounded caps and joins · no fills.

user · settings · map-pin · plane · calendar · wallet · compass
star · heart · utensils · bed · search · filter · sparkles · AI
edit · trash · plus · download · chart · check · alert

Use teal or Ink for ordinary UI. Reserve violet sparkles for AI features. Keep the 24px artwork centered inside a minimum 48px interactive target.

Pair unfamiliar actions with visible labels. Icon-only buttons require an accessible name and a tooltip. Use a consistent stroke at every touchpoint.

05 A rhythm that makes everything fit

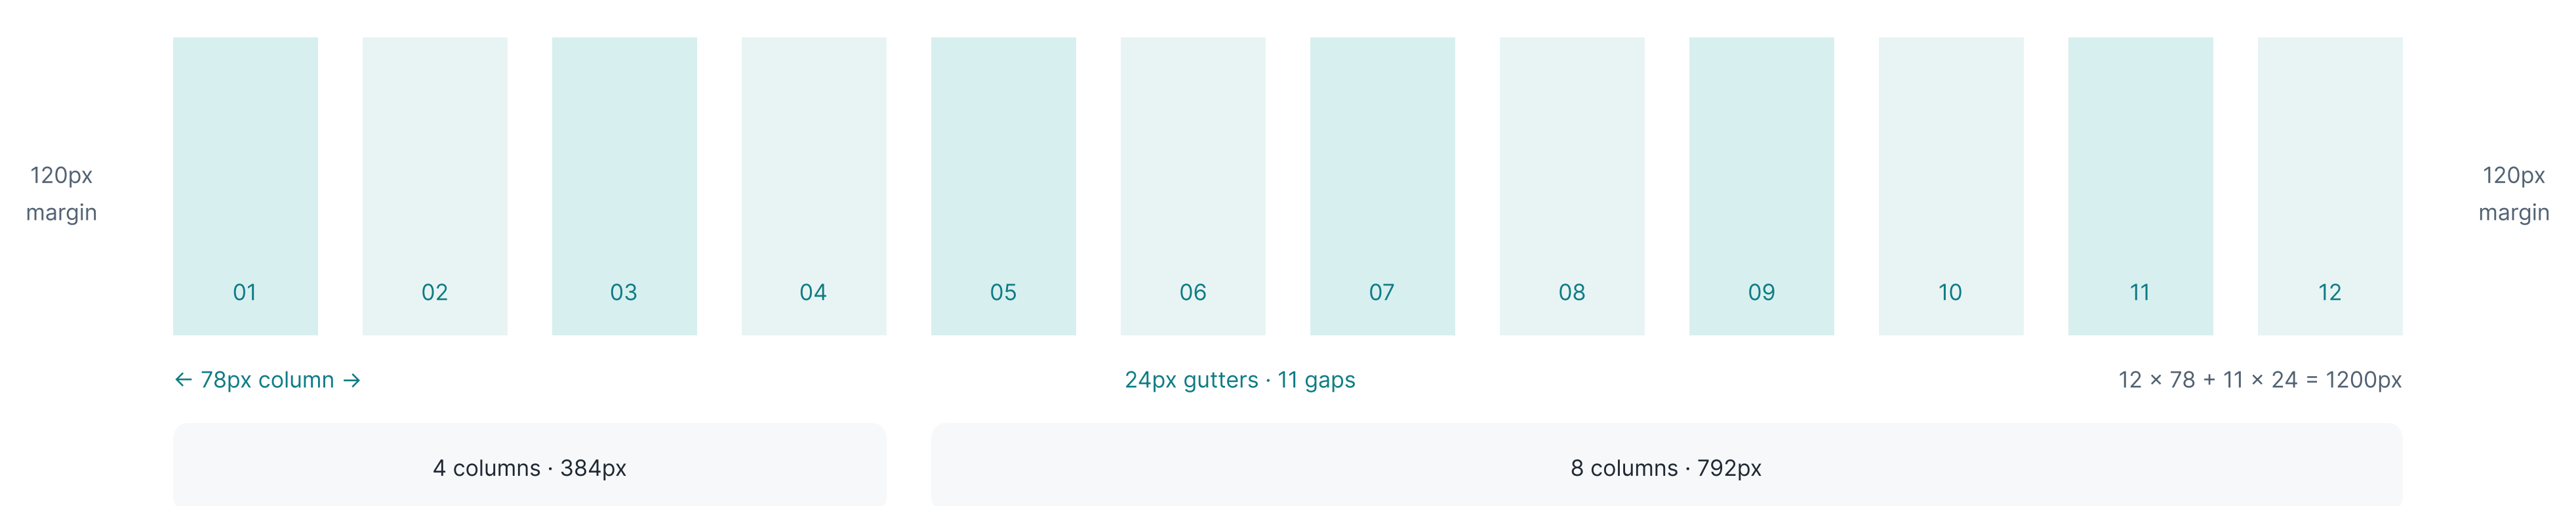
An 8px base grid, with a 4px micro-step. Predictable spacing creates a calmer planning experience.

4px	8px	12px	16px	24px	32px	48px	64px
space-4	space-8	space-12	space-16	space-24	space-32	space-48	space-64

4 / 8: icon-label and micro gaps · 12 / 16: compact groups · 24: card padding and gutters · 32: related modules · 48 / 64: section rhythm

Desktop / 12-column grid

1440px viewport · 1200px container · 120px outer margins



Soft edges, clear purpose

Controls radius-8
Cards radius-16
Chips radius-full

8px for buttons and text fields; 16px for content cards. Fully rounded chips use 999px or 50% for circles.

Elevation, without the noise

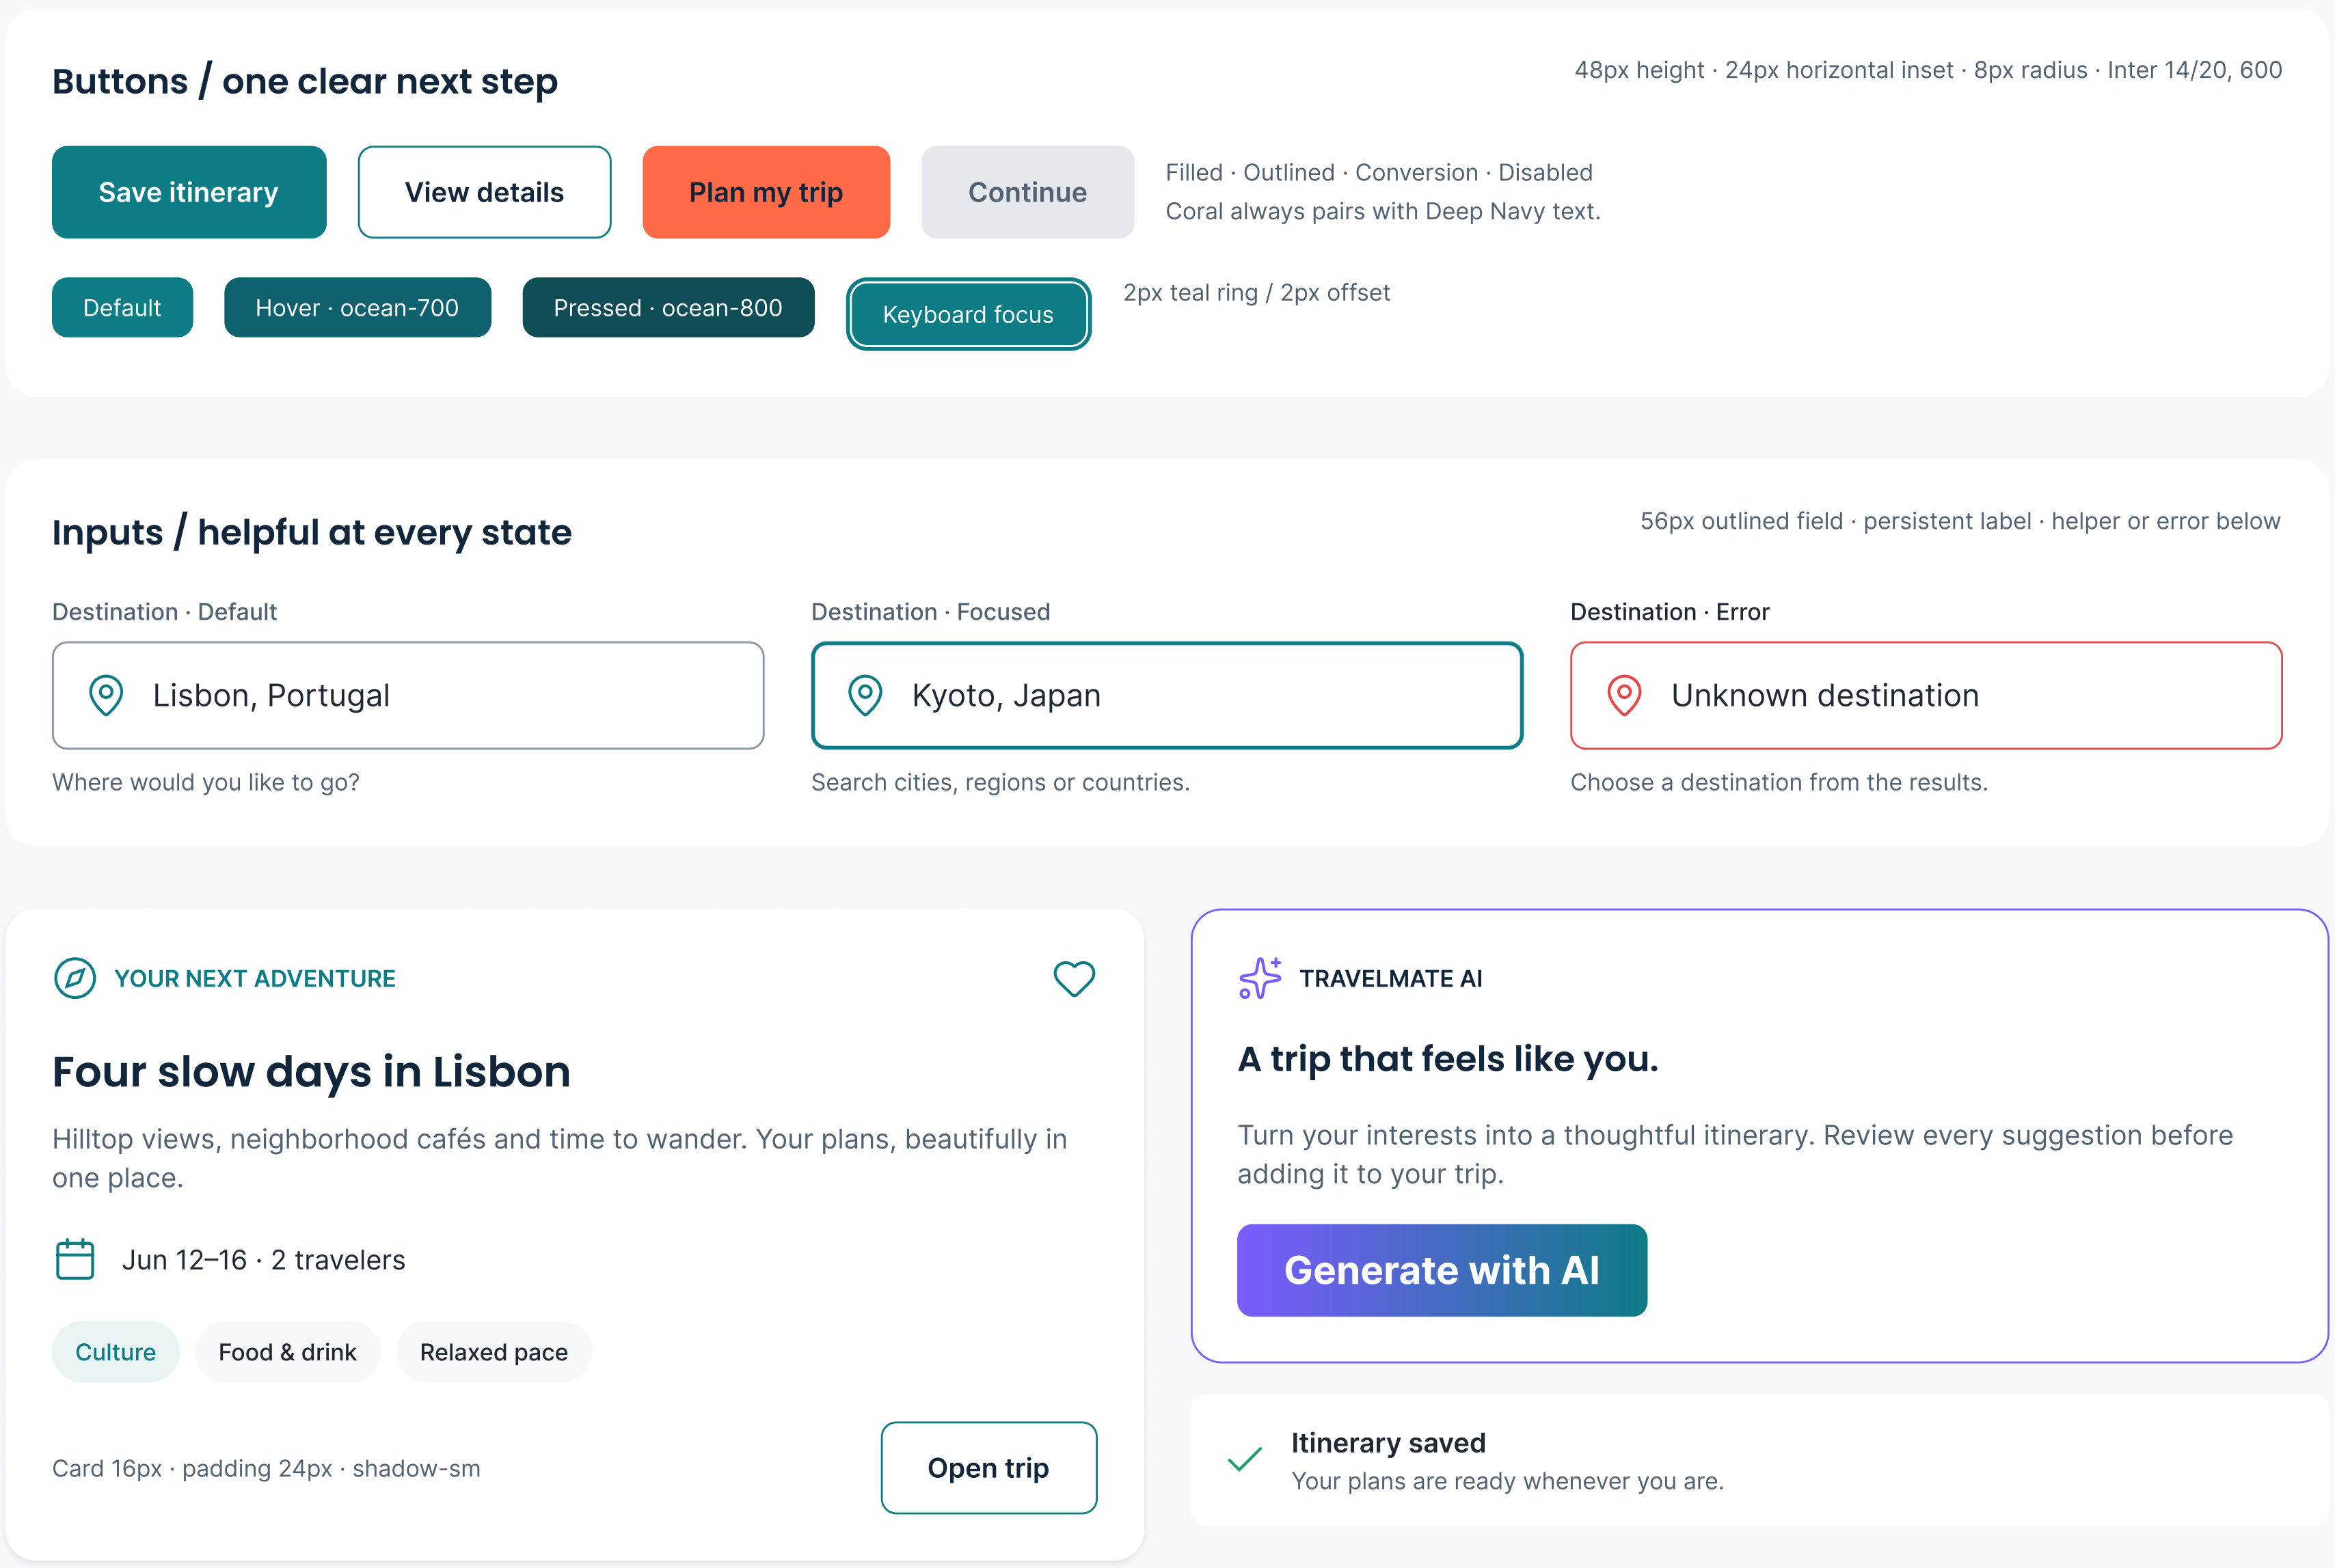
sm – Cards
md – Menus
lg – Dialogs

sm: 0 2px 4px 0 rgba(18,38,58,.08)
md: 0 8px 24px 0 rgba(18,38,58,.12)
lg: 0 16px 48px 0 rgba(18,38,58,.16)

Angular Material alignment: keep spacing tokens in CSS custom properties; map 8px / 16px shapes and the type scale into the theme. Grid math is exact: each desktop column is 78px.

06 From foundations to your next trip

Static, Angular Material-friendly specimens. Familiar controls, TravelMate character.



Buttons / one clear next step

48px height · 24px horizontal inset · 8px radius · Inter 14/20, 600

Filled · Outlined · Conversion · Disabled
Coral always pairs with Deep Navy text.

2px teal ring / 2px offset

Inputs / helpful at every state

56px outlined field · persistent label · helper or error below

Destination · Default: Lisbon, Portugal — Where would you like to go?
Destination · Focused: Kyoto, Japan — Search cities, regions or countries.
Destination · Error: Unknown destination — Choose a destination from the results.

YOUR NEXT ADVENTURE

Four slow days in Lisbon

Hilltop views, neighborhood cafés and time to wander. Your plans, beautifully in one place.

Jun 12–16 · 2 travelers

Card 16px · padding 24px · shadow-sm

TRAVELMATE AI

A trip that feels like you.

Turn your interests into a thoughtful itinerary. Review every suggestion before adding it to your trip.
